DEER SCRAM™ PROFESSIONAL

Deer Scram Professional stimulates a strong fear-based response that scares deer away by emitting an odor they associate with death. It repels them before they begin browsing shrubs and eating plants & flowers.

● Assess and Quote

- Measure perimeters of the landscaped areas
- Locate where deer are entering property.
- Calculate total linear feet of application.

● Scoop

Use the scoop provided. One scoop will provide 20 linear feet of 18 inch wide strip.

● Treat

- Starting 15 inches from the edge of the landscaped area, apply a 20 inch wide band of Deer Scram Professional around the perimeter of the bed.
- Find where the deer are entering the property and apply 3 strips across the deer path, 5 feet apart.

Each application of Deer Scram Professional should last 30 days, including normal rainfall or irrigation. Extremely heavy rain may require re-application.

COVERAGE

25 LB CONTAINER will provide approximately 1440 linear feet of protective strips (protecting approximately up to a maximum of 27,900 square feet based on 18" strips).
